

dish soap apron

materials list:

- fabric scrap
- double fold bias tape ($\frac{1}{4}$ " - you need just over a yard

instructions:

- ① Cut out your pattern piece
- ② Sew a piece of bias tape to A
- ③ Sew bias tape around the hem of the apron (i.e., B)
- ④ Cut a 26" long piece of bias tape. Mark the center with a pin. The neck section is $3\frac{1}{2}$ ", so measure $\frac{1}{4}$ " from the center pin on each side. That's where you will attach the bias tape to the armhole section of the apron. Sew, beginning at one end of the apron tie
